

# Aflonso

Welker

→ change slide names from Product Design to specific descriptions

Product D → Diagram is actually Software flow

Product D → Diagram lots of words can be deleted → it is an eye sort

Project Goals → fact you haven't start 10-clicks

→ why are using KL46Z?

Hinkle ① differentiate  $\$/w$  PCA 3 PCB 2

② what is max PWR that board can take?

MO  
said will talk later

→ ③ Design Regulation how much power each click will take?  
→ Have this info 3 memorized

④

McCullen

① Document not legible → do it differently

② Project Matrix

③ figures are off on document

④ Confused on Project the process of how it works

⑤ Referred to (GUI states) flowchart

⑥ Talk about BUSES → skip on backed you up
